

Earthen & Earthen Plus Grading & Length Specs

Earthen & Earthen Plus is manufactured from select grade radiata graded to the best face and two Edges. A high appearance grade with front face and edges primarily clear but with some small defects allowed in some boards.

Front face and edges allow isolated defects as follows: Birds eye fleck – medium. Sap stain – insufficient to obscure grain. Edge defect – one tight knot, resin, or bark pocket in bottom two thirds of edge only. In 20% of boards one defect is allowed on the best face as follows: Small tight knot (inter-grown or tight encased) 5mm diameter. Resin or bark pocket 30mm length x 3mm width. Kiln check less than 1mm wide x 50mm long. The reverse face of the board may contain knots and defects applicable to radiata premium grade.

Length Specs 3.0m - 5.4m – with 70% 4.2m and 4.8m.
